Github, VS Code

Professional Experience

FULL STACK DEVELOPMENT

Jan 2023 | Coimbatore

Nandha Infotech

- The internship offered by Nandha Infotech is on the Web Development.
- Tech Stack: ReactJs, AngularJS , NestJs.

Projects

Fraud App Detection using Opinion Mining

The objective is to develop a system in detecting fraud apps before the user downloads by using opinion mining. Opinion mining is the field of study that analyses people's opinions, evaluations, attitudes, and emotions from written language. This system maintains mobile app profile, specification, reviews and ratings. The posted reviews and ratings are analysed, extract the features and classify the reviews and ratings using opinion mining technique

KR Fashion: Your Reliable Shopping Hub

Explore KR Fashion for a straightforward and efficient online shopping experience.

- Built using Angular and NestJS frameworks for a smooth user experience.
- Supported by a robust PostgreSQL database for secure and reliable transactions.

Browse our diverse range of fashion items with ease, backed by secure payments and prompt delivery. Shop confidently with KR Fashion.

Certificate

- Learning Java 11" by Kathryn Hodge! In LINKEDIN
- Connecting with the Internet of Things in INFOSYS
- Building Levels of VR in INFOSYS
- Introduction to Machine learning in SPRINGBOARD

Achievements

I proudly attained a prestigious certificate in Techgium, marking a monumental milestone in my technological prowess and academic excellence.
